

# Wedding Consultation

*What to bring to make the most of your wedding music consultation.*

- \* During your music consultation I will help you select music that will add to the atmosphere of your special day. I will guide you in selecting music for the following portions of your ceremony:
  - Prelude/Seating Music
  - Processional
  - Special music during ceremony (i.e. songs during the unity candle, sand ceremony, communion, or other special elements)
  - Recessional
  
- \* Having the certain details of your ceremony on hand for the consultation will be very helpful in deciding how much music will be needed. These include:
  - Details of wedding party (i.e. number of bridesmaids, groomsmen, flower girls, ring bearers, parents, and grandparents)
  - How long would you like the prelude before the ceremony to be?
  - How are guests being dismissed? Would you like music during this time?
  - Will there be other musicians or vocalists?
  - Name of venue
  
- \* Prior to our consultation, it can be helpful to think through songs that are meaningful to you that you might want to include in the ceremony. There are also countless places to look for song inspiration including YouTube, Spotify, Apple Music, and more. If you have ideas about song selection, please bring them with you.

*Thank you for choosing me to provide the soundtrack to your ceremony.  
I look forward to meeting with you!*
